

TREATCHEM

Mission Statement

TREATCHEM *aims to be the main provider of quality chemical treatment programmes to a broad range of industrial customer within the UK when:*

Health, Safety and protection of the Environment are paramount.

Quality is the determining factor in a Client' success.

Reducing total costs and increasing profitability are key customer objectives.

Customers seek to establish long term business relationships which promote environmental protection and safety whilst incorporating the fundamental principles of integrity and trust as part of the decision making process.

Customers needs require professional, efficient and effective management of proven, chemical programmes and services, which enable them to focus on their own core business activities.

Treatchem Limited
